~~I see more & more these~~  
~~patients with medical com-~~  
~~plications. Lack of proper~~  
~~nutrition and exercise~~  
~~are critical components~~

The consumption of added sugar has  
jumped 25 percent since 1984,  
squeezing healthy foods out of the  
diet. As a member of the Center  
for Science in the Public Interest  
(CSPI), I urge the FDA to establish a  
"Daily Reference Value" for added  
sugar of 40 grams and to require  
labels to disclose how much added  
sugar a food contains.
